** ** *

SICIT Group

Founded in 1960 in Chiampo (VI), **SICIT** was one of the first companies in the world to introduce protein hydrolysates of animal origin on the global biostimulant market. A pioneer of the circular economy, the company uses a process of hydrolysis of residues from the tanning industry to manufacture a high added value product for agriculture (biostimulants) and the plaster industry (retardants). Thanks to a qualified team, highly automated and technologically advanced production facilities, state-of-the-art laboratories and constant investment in R&D, SICIT has become an international reference point, supplying the main players in the agrochemical and industrial sectors.

Since June 2020 SICIT has been listed on the MTA, STAR Segment, of the Italian Stock Exchange.
